SCOTCHGARD™ – AND LEATHER IS LOOKING GOOD LONGER

Luxurious leather articles deserve the best protection!

Products:

- **PM-4700** for drum applications
- **PM-4701** for aqueous spray applications
- **PM-4800** for solvent spray application

- **Excellent water, oil and stain resistance.**

Scotchgard protects from the adverse effects of spilling food & beverages as well as exposure to rain.

- **Invisible protection.**

The final article keeps its touch and appearance as Scotchgard is preserving the feel, look and natural softness of the leather.

- **Retained breathability.**

The leather remains permeable to water vapour, thereby retaining a high level of wearer comfort.

- **Best price-performance.**

Their unique composition ensures that the Scotchgard products offer the highest and most durable oil, water & stain resistance on the market, and despite their high concentration, our competitive pricing means that the customer gets the very best value for his money.

Use the branding opportunity and add value to your leather with Scotchgard™, a brand with 50 years of leadership for protective treatments.

TFL is the official distributor of Scotchgard™ Protector for leather.
