

Excellent – Synergy between graphic and leather industry

TFL – Great chemicals. Excellent advice.

TFL AND AGFA PARTNERSHIP

Individual design options on high performance leathers

Agfa and TFL join forces to decorate high-quality genuine leathers used by fashion, upholstery, automotive, aviation and nautical industries.

Digital Printing Solution

Agfa has developed an Inkjet Printer, Inkjet Ink and Printing Process Software to accommodate the special needs in leather processing.

Chemistry & Application Knowhow

TFL has custom-developed Base Coat – and Top Coat Systems resulting in inkjet printed articles with high flexing and wearing properties.

The Agfa and TFL partnership combines the best of two worlds to provide a perfect industrial inkjet printing solution for customized and personalized leather articles.

Endless possibilities –
high quality print on leather
