

# Product Information

## Wet-End

**BORRON® A - Wetting and dispersing agent**

**Edition 2019**

### Features

**BORRON® A** is anionic, biodegradable and is compatible with enzymatic products.

#### Handling:

Wear goggles and gloves during handling and close containers tightly after use.

#### Storage stability:

Can be stored for about 2 years if protected from frost (0°C) and heat above 40°C.

### Benefits

**BORRON® A** has excellent wetting, dispersing and emulsifying properties.

**BORRON® A** imparts outstanding degreasing and enhances the cleanliness of the hides. In combination with non-ionic surfactants it has a positive, synergistic effect (e.g. **BORRON® DNC**).

**BORRON® A** improves the emulsion persistence thus prevents the fat from settling on the surfaces of the processing vessel and hides or skins.

**BORRON® A** improves the cleanness of pelts if used in the liming process.

**BORRON® A** has a positive and synergistic effect on degreasing in combination with enzymatic soaking agents such as **PELLVIT®**.

### Application

The required dosage for **BORRON® A** depends on the raw stock, treatment step and preservation type of the pelt as well as on the type of leather to be produced.

#### Quantities to be used:

Soaking: 0.1 - 0.6 % based on salted weight

Liming: 0.3 - 0.6 % based on salted weight

### Trade form at 20°C

clear to opalescent liquid

### Colour at 20°C

colourless to yellow

### Dry content (%)

28,5 – 31,5

### pH – value (tel quel)

6,0 – 8,0
