RODA® Feel KTA 950 – Touch modifier

Product Properties	<p>RODA Feel KTA 950 is used as a Feel modifier which imparts a smooth, silky touch to the leather, in addition to improving sellotape resistance and rub fastness.</p> <p>Due to its self cross-linking characteristics it does not affect fixing properties of the aqueous lacquer emulsions to which it is added.</p> <p>Its charge means it can be used use in any cationic basecoat in order to reduce resin stickiness whilst improving coverage and Feel of the leather.</p>
Application	<p>RODA® Feel KTA 950 is applied by spray guns and can be added in quantities starting from 3% to aqueous nitrocellulose emulsions or aqueous top coats: in the latter, compatibility trials should be performed due to the cationic nature of the product.</p>
Chemical nature	Formulated by water based silicones
Appearance	White opalescent liquid
solids	9.5 – 11.5 %
pH	3.0 – 5.0
Charge	Cationic
Storage	The product can be stored in its original packaging between 5°C and 35°C for 12 months.
Safety	For safety information see the safety data sheet

Regarding toxicological and ecological data see the safety data sheet of above product.
