### **RODA® Feel S 2075 – Touch modifier**

---

<b>Product properties</b>	<p><b>RODA® Feel S 2075</b> is a silicone based product mainly used in water based top coats for car upholstery.</p> <p><b>RODA® Feel S 2075</b> performs well for the Taber test, and in addition it imparts good wet and dry rub fastness performance. It gives the leather a typical 'silicone' touch.</p>
<b>Application</b>	<p><b>RODA® Feel S 2075</b> is used in quantities varying from 1% to 5% of the final top coat weight, depending on the desired Taber test result.</p>
<b>Chemical nature</b>	Water based silicone emulsion
<b>Appearance</b>	Opalescent white liquid
<b>Solids</b>	56.5 – 58.5 %
<b>pH tel quel</b>	n.a.
<b>Charge</b>	Non-ionic
<b>Storage</b>	The product can be stored in its original packaging between 5°C and 35°C for 18 months.
<b>Regulatory information</b>	<b>RODA® Feel S 2075</b> does not contain NMP, NEP or formaldehyde; has a high VOC content (see §15 of the safety data sheet for detail and test method).
<b>Safety</b>	For safety information see the safety data sheet

Regarding toxicological and ecological data see the safety data sheet of above product.
