RODA[®] Fix 1052 – Aqueous top coat

Product properties	RODA [®] Fix 1052 is the matt version of RODA [®] Fix 1051. It gives an opaque, non repolishable film that does not whiten when bent or dry milled which is suitable for final seasons of matt articles for shoe uppers and leather goods. The addition of some RODA [®] Link crosslinkers in our range enables high dry/wet rub fastness to be obtained.
Application	RODA [®] Fix 1052 is applied by spray guns alone or combined with RODA [®] Fix 1051 according to the opacity required.
Chemical nature	Formulated by water based polyurethanes, caseins and matting agents
Appearance	Light amber opaque liquid
Solids	22.0 – 24.0 %
pH	8.0 – 10.0
Charge	Anionic
Storage	The product can be stored in its original packaging between 5°C and 35°C for 18 months.
Safety	For safety information see the safety data sheet

Regarding toxicological and ecological data see the safety data sheet of above product.
