Finishing

Edition 2016

RODA® Ground K 4038/F – Cationic Pre-bottom

Product properties	RODA® Ground K 4038/F is a soft, polishable, cationic pre-bottoming product which is particularly suitable for full grain shoe upper articles.
	RODA® Ground K 4038/F contributes to defect reduction, good adhesion and grain sealing, without loading the finishing. The product imparts a very natural feel after polishing.
Application	An example of a working application recipe: 60 parts RODA® Ground K 4038/F 40 parts water X parts RODA® KP pigments Spray 1-2 crosses, dry and felt polish; proceed with subsequent phases of finishing.
